## AWFUL EXPLOSION.

Town of Palma Shattered Through a Cartridge Going Off.

## SEVENTY-ONE LIVES LOST.

Many Other Men and Women Also Seriously Injured—An Engineer and Fireman Killed—Soldier Through Illness—A Negro Murderer.

BARCELONA, Spain, Nov. 26.—At Palma, capital of the island of Majorca, eighty persons, most of them women, were employed in emptying old cartridges when one of the cartridges exploded in some manner. A large quantity of powder taken out of the cartridges was ignited by the discharge and a tremendous explosion followed, which shattered the masonry of the town walls which were very thick and did much damage to buildings. Thirty-seven women and fourteen men were instantly killed and thirty-five women and five men were seriously injured and of this number twenty have since died.

An Engineer and Fireman Killed. JACKSON, Tenn., Nov. 26.—The north-bound passenger train, due here at 11 o'clock last night, ran into a box car, which had been blown out on the track at Lamar, Miss., and Engineer Wooley, of Water Valley, and his negro fireman were killed. The passengers were uninjured. Trains were delayed a few hours.

Suicide Through Ill Health. DALLAS, N. M., Nov. 26.—Mrs. L. Craddock killed herself last night at the family home, South Ervay and Cadiz streets, by shooting herself through the head, while temporarily deranged as the result of ill health. Her husband is a leading wholesale grocer.

A Negro Murderer. BRYAN, Tex., Nov. 26.—On the Moore plantation a negro man became enraged at his wife and shot her. Her mother ran in terrified, and he turned his weapon on her, inflicting a fatal wound. The murderer fled to the woods.

SALISBURY'S REPLY TO OLNEY.

The Premier's Statement Concerning the Venezuelan Dispute Ready.

LONDON, Nov. 26.—The marquis of Salisbury, it is understood, has completed his reply to Secretary Olney's note regarding Venezuela. It is expected that the answer will be immediately delivered to the United States ambassador, Mr. Thomas F. Bayard.

Nothing is known at the colonial office here of the alleged statements of the administrator of British Guiana that the imperial government is prepared to assert the rights of arms. News reached here several days ago that the Legislature of that colony had acquiesced to the proposal of the secretary of state for the colonies, Mr. Chamberlain, to increase the colonial force by two inspectors and another Maxim gun, the legislature also notifying the government that it is prepared to vote anything the colonial secretary considered necessary for the defense of the colony. There has been no change in the boundary dispute and the government, it is added, will not tolerate Venezuelan aggression beyond the Schomburgk line.

WILL STAY IN KANSAS.

Gov. Morrill Declines to Give Up Abductor Chisholm to Missouri.

TOPEKA, Kan., Nov. 26.—Gov. Morrill has refused the requisition from the governor of Missouri for Fred Chisholm, the negro charged with having abducted a young white girl in Benton county, Mo. The refusal was based on the irregularity of the papers, there being nothing to show that the person before whom the original complaint was filed was a magistrate or that the signature attached was that of the committing officer. There was some excitement among the negroes who had come from Lawrence to prevent Chisholm's extradition, it being claimed that it was the purpose of the people of Benton county to lynch him.

COTTON TO OFFSET GOLD.

European Demand for the Former Will Check Shipments of the Latter.

New York, Nov. 26.—Cotton seems likely to become an important factor in the question of the treasury gold reserve; at least temporarily. The brisk demand for cotton in Liverpool sent the market up with a bound yesterday, and as a result the export movement will doubtless set in in earnest this week, which means cotton bills sufficient to meet the demand and stop or limit gold shipments. Already large transfers of currency have been made by the sub-treasury here to New Orleans to pay for the movement of the cotton crop.

DIED SUDDENLY.

The Superintendent of the St. Louis Electric Street Railway Expires in the Power House.

ST. LOUIS, Nov. 26.—Richard Klemm, superintendent of construction of the Union depot electric street car system died suddenly in the power house of that company this morning. It is believed that his death was due to over exertion during the blizzard of last night. Mr. Klemm was formerly park commissioner, and was one of the judges of beer awards at the world's

fair, he was about 50 years of age and leaves a widow and family.

Gold in Exchange for Currency.

PHILADELPHIA, Nov. 26.—Gimbert Bros., dry goods dealers of this city, have engaged to ship \$100,000 in gold to the secretary of the treasury under the agreement of Mr. Carlisle to pay express charges. They are the first merchants to take advantage of the offer.

Thrown in Front of a Train.

SOUTH BEND, Ind., Nov. 26.—A gang of tramps held up one of their number, and, after rifling his pockets, threw him in front of a Lake Shore train. The man is badly injured and may die. James McMan has been arrested for complicity in the affair.

"TELEGRAPHIC" BRIEVITIES.

A. S. Trade's building on Randolph street, Chicago, was damaged by fire to the amount of \$75,000.

Many robberies of money, valuables and live stock are reported from the vicinity of South McAlester, I. T.

Mrs. J. M. Treessler, a leading milliner of Fort Scott, Kan., has failed with liabilities aggregating nearly \$10,000.

Col. W. C. P. Breckinridge will make the race for congress next year in his old district—the Seventh Kentucky.

The Hoister house at Galena, Kan., was completely wrecked by a premature explosion of a box of powder and caps.

The Y. P. S. C. E. of Kansas will have a paper, to be called the Kansas Endeavor, which will be issued monthly from Topeka.

Lewis Lamora, a Burlington railroad brakeman, fell from a slippery freight car at East Leavenworth, Mo., and was ground to pieces.

W. G. Bird, state labor commissioner of Kansas, has begun suit for divorce from his wife in the Wyandotte county district court. He alleges cruelty.

Mrs. Helen Bell, of Kansas City, Kan., was arrested for unlawfully beating her 10-year-old son. The complaint was made by the boy's father.

Receipts of cattle at the Kansas City stock yards are falling off, a fact attributed to the cheapness of corn and the desire of feeders to hold until better prices.

Prof. E. T. Hand was acquitted at Perry, Ok., of the murder of George F. Rohr, formerly mayor of Arkansas City. The killing occurred near Kildare in a dispute over a claim.

At McArthur, O., C. H. Rogers was tarred and feathered and ridden on a rail then told to leave the country. He was charged with speaking disrespectfully of a young lady school-teacher.

At Shamokin, Pa., an attempt was made to poison a Polish Catholic priest by putting Paris green in the wine vessel which the priest was in the habit of drinking from, but the plot was detected.

The millinery establishment of A. H. Fuchs at St. Louis was destroyed by fire on the 25th. The heavy snowstorm delayed the engines and allowed the fire to get a good start. The loss was estimated at \$115,000; partly insured.

The United States supreme court holds that it has no jurisdiction over the "habitual criminal" act of Missouri. This leaves the act constitutional and settles a dispute which has been waging since the passage of the law by the legislature.

John Hale and another negro were quarrelling in front of Mr. Jones' residence at Nashville, Tenn., and Jones came out and remonstrated with them, when Hale drew a revolver and shot Jones dead. Officers soon after went on the trail of the murderer, bloodhounds being put on his track.

A boat was found adrift on Red river, near Arthur City, I. T., containing four bodies, all unknown, but papers were found which indicated that one of the men was E. C. Carody. They had evidently been dead several days, and circumstances pointed to robbery as the motive for the murder.

The mixed evening train on the Kansas Central broke in two near Easton, about 3 miles from Leavenworth, and when the front part stopped the detached passenger coach crashed into a mail and express car. Two women had a narrow escape. Conductor James Lake was injured by jumping. James R. Gennett, who served in company A, Fourteenth Kansas cavalry, during the war, shot at Superintendent Hedwell, of the North Topeka insane asylum, where he has been confined for some time. Hedwell escaped injury. In Gennett's pocket was found a list of men whom he proposed to kill.

WASHINGTON, Nov. 26.—Secretary Hoke Smith, in his annual report, will recommend that the Carey law, granting 1,000,000 acres of arid lands to each state, in which such lands are situated, be so amended that the grants be made to the states outright, and the states be made responsible for the irrigation of the lands. Under the law as it now stands it would be many years before the states would receive the benefit of the grant, and Secretary Smith believes the states can better carry out the intention of congress if they get control of the entire grant at once, instead of waiting until water is secured for the lands.
